DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Invention I, claims 1-9 in the reply filed on September 14, 2004 is acknowledged.

Allowable Subject Matter

2. Claims 1-9 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not teach or suggest a muffler or catalyst housing comprising: a "sheet blank (1) [which] comprises an integral, profiled sheet metal part of differing thickness with at least one strip section (10) of a thickness (S2) that locally reinforces the finished exhaust housing part, and at least one strip section (11) of greater thickness at least in one wall region," as recited in Claim 1.
4. Applicant's characterization of the prior art is germane. See Specification, page 1. The prior art relies on a sheet blank having a generally uniform thickness, even after a stamping process is performed to form ribs and other strengthening features.

Prior Art References

The prior art references listed on the enclosed PTO-892, but not used in a rejection of the claims, are cited for their teachings of muffler housings.

Conclusion

5. This application is in condition for allowance except for the following formal matters:

Claims 10-16 should be canceled, as directed to non-elected inventions.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
